Divine healing codes are a quantum tool used for healing. In other words, they change reality on a quantum level. The basic premise of divine healing codes is that numbers are nature’s way of communicating and that everything can be explained with numbers. For example, the Fibonacci sequence of numbers is a geometrical proportion that is found everywhere in nature, from how flowers grow to the shape of the universe.

The order goes as follows: 1, 1, 2, 3, 5, 8, 13, 21, 34, 55, 89, 144 and on to infinity. Each number is the sum of the previous two. This series of numbers is known as the Fibonacci numbers or the Fibonacci sequence. The ratio between the numbers (1.618034) is frequently called the golden ratio or golden number. And, this sequence appears in nature often enough to prove that it reflects some naturally occurring patterns.

If you were to look at the seeds in the center of a sunflower, you would see what appears as spiral patterns curving left and right. And if you were to count these spirals, your total will always be a Fibonacci number. You can also decipher spiral patterns that reflect the Fibonacci sequence in pinecones, fruits and vegetables such as pineapples and cauliflower, trees, sea life, within honeybee colonies and even in humans.

If you were to look at yourself in the mirror, you would see that most of your body parts follow the numbers one, two, three and five. One nose, two eyes, three segments to each limb, five fingers and toes. The proportions and measurements of the human body can also be divided up in terms of the golden ratio. And DNA molecules follow this sequence, measuring 34 angstroms long and 21 angstroms wide for each full cycle of the double helix.

This ratio exists because the particular growth patterns associated evolved as the most effective. For example, in plants it may mean maximum exposure for light or maximum space for seed arrangement. So, you may see how nature has perfectly designed itself. And if we were to tap into these quantum healing codes and use them to our advantage, how we may also be able to perfectly design our bodies and mental states. Although we understand communication through words, numbers, mathematics and formulas have existed since the beginning of time, and they will
keep existing whether we understand them or not. Let’s look at how these quantum healing codes are said to work.

There are three really simple ways to use them:

1. Writing it on the part of the body that has discomfort, or writing it on a sticker and placing that sticker on the body where there is discomfort.

2. Writing it in the air over the part of the body that has discomfort

3. Typing out the number on your phone or tablet and then holding that device over the body part

It is also said that you set an intention for your quantum code and then add that in the ways just listed to your food or water before consuming them. How much practice, desire, intent, and trust you hold will make the difference in the healing you receive. When use this practice, you balance the energy in your body so it can achieve self-healing.

This is energy healing, much like Reiki. If you are experienced with energy healing, this could be a great alternative or addition to the practices you already use. **These codes are not intended to diagnose, treat, cure, or prevent any disease. If you under a doctor’s care, or feel as though you need to be under a doctor’s care, please seek the advice of that doctor before attempting to replace any treatment.**

**From the creators of this list:**

The Healing Codes are going to be organized by Systems, and this document will be updated as more and more Healing Codes 'come through' from Divine Mother, Archangel Raphael, and Source

**They are a gift from Spirit and are to be used for free, and freely shared.** Here is a reminder from both Marc Gamma and Isabel Henn, the first originators of the codes. All documents pertaining to their discovery are listed in the references of the bottom of the page. Please note that Marc has closed his blog, and some links from him may not show up.

Isabel Henn asks for this to be included in this document from this time forward--at the request of Divine Mother:

This assembly of codes and the instruction how to use them is NEVER to be sold, but always to be shared free and without any claim or exchange. It is written for
the free use by all humans and all beings as I give the codes for the free use by ALL. Each human, each being has a right to use these codes free and without charge. It is also not allowed to change this assembly, unless I give my appropriate personal order for this. Without the authorization through me or as a transfer against exchange the codes will be useless, because they request a certain consciousness and a certain frequency level of the people so that they can be used. I tell you this to stop any ideas for this purpose before they even begin. This is a living document, all new codes and the links to the messages shall be integrated here.

And please remember the spaces in the number sequences as they are important. Without them the codes won't work but it would lead to far to explain it here. Be careful to write the number codes correctly."

**DISCLAIMER**

Archangel Raphael says this for 86 42 789 and for 16 612 485 97895:

This code is safe for use in children—there is a safety feature in the energy—it won't be too much and cannot cause harm.

It is a dual-purpose code, one for mental/behavioral concerns and the other for common childhood illnesses.

FOR ADHD: continue all medications as prescribed by a physician because abrupt withdrawal can have substantial consequences to the health of your child.

FOR SUSPECTED ADHD: there is no harm in the code use, but if no improvement is seen, please take the child for a full medical work up.

**THIS CODE MAY NEVER BE APPLIED TO ANIMALS--THE ENERGY IS SO STRONG IT WILL KILL THEM IN A SHORT TIME.**

To use the code correctly:

- write the code on the chest area
- have the person rest for at least one hour
- no big strains, driving a vehicle of any kind—responsiveness is limited for several hours

This code may be used with the same directions for measles, german measles (Rubella), ear/nose/throat pain attributable to inflammation, polio

Use your heart and your inner guidance
Practice until you feel you have the skill to apply these with maximum benefit
Ask for All Divine Assistance to help you every time, and to correct for any mistakes you might accidentally make in using them.

I love you.

Aloha and Mahalos,

Namaste,

Peace,

Reiki Doc

P.S. With all gratitude to Marc Gamma, Rilana Jaun, Contra Mary, Paulina Loftus, and Isabel Henn for their pioneering work with the Divine Healing Codes. Also, gratitude to ongoing contributor Lauren Obeng who has provided codes over the years with a wonderful sense of angelic insight. Deepest thanks to our developer Gordon Bland, for the app launched 12/12/2017 on Android (iPhone coming). This would not be possible without your expertise and hard work with technology which is beyond me.

P.P.S. The majority of the Divine Healing Codes have come through me--about ninety-five percent of them. At the beginning it was slow and I checked them for accuracy with Isabel. Now they come directly through. It amazes me with wonder that there has never, in all of these years, been a duplicate of a code! I cross-check every new one against the list--it's lengthy! And Spirit is without fail, one hundred percent, correct every time.
